

# **The Career services launch a series of 4 workshops on « Building a Career Plan » based on the Strong & Campbell test**

Organizing your research, introducing yourself efficiently to a recruiter, choosing your first internship/job... all not easy tasks when you haven't clearly defined your objectives and your career plan. The Career Services offers 4 workshops on « Building a Career Plan » during the months of February, March and April,

Are you a student ? The Career Services give you the opportunity to work on your professional preferences, on the talents which differentiate you from other candidates, the surroundings, the activities and the jobs which would suit you best.

How? By exploring your answers to the internationally recognized professional interests' survey Strong &Campbell. You will also be able to complement your answers with group feedback.

At the end of the workshop series, you will be able to present your career plan within three minutes and to establish a course of action to further your research.

This series of « Building your Career Plan » is composed of 4 workshops (registration and attendance are mandatory throughout the workshops).

## How does it work ?

After having taken **the online test**, students work in groups of 10, moderated by a certified STRONG consultant, to give and receive collective feedback on their results.

### ***The STRONG test is a precious tool to assist you in decision-making when:***

- Choosing a choice of specialization (Master) that matches your interests
- Identifying fields, sectors and jobs aligned with your interests and personality
- Determining your learning style and your preferences in terms of professional environment (team player, individual contributor, stable or evolving environment, appetite for leadership etc.).

## And ?

It leads to the designing of **a course of action to build a career plan**.

### ***Do you want to register for the workshop series ?***

You can follow one of the four series offered by the Career Services in February, March and April 2017

[More information and registration](#)

Within a few months, 60 Sciences Po Bachelor and Master's students have already taken the workshops and have had enthusiastic reactions:

***« Discovering my profile has been very beneficial as it reaffirmed a certain self-image »***

***« It allowed me to revisit my perception of myself, my qualities and my flaws. »***
