Sciences Po  
Careers

Dear employers,

You may have heard of Emmanuel Macron, Jacques Chirac, François Mitterrand, Simone Veil, Boutros Boutros-Ghali, Jean-Claude Trichet, Chandrika Kumaratunga, Pascal Lamy, David de Rothschild, Marcel Proust or Christian Dior, to name but a few... Did you know they were all alumni of Sciences Po?

How well do you know Sciences Po? With a network of 470 partner universities around the world and some 30 dual degrees with prestigious universities such as Columbia University in New York, the London School of Economics and Peking University, Sciences Po is France's leading university in the social sciences. It ranked second in the world for politics and international studies in 2021.\*

Sciences Po has been educating decision-makers in the public and private sectors since 1872. Today, we have a student body of 14,000, half of whom are international students from more than 150 nationalities. Our network of 65,000 alumni carries significant clout in politics, international organisations, multinational corporations, academia, the media and the arts.

Founded on the belief that the humanities and social sciences are crucial tools for understanding and transforming the world, Sciences Po's programmes combine a multidisciplinary academic curriculum with professional skills, well-rounded knowledge and a spirit of action.

The Bachelor's degree programme at our Undergraduate College gives students a choice of seven regional campuses at which to study and covers the six core disciplines of law, economics, humanities, history, political science and sociology. Students are encouraged to consider shifts in contemporary society at a local and global level, and to champion the common good through a civic engagement project of their choice. At the end of the three years of the Bachelor's degree, graduates are invited to further specialise within a Master's programme in public affairs, international affairs, law, business, urban studies, journalism or research at one of our seven professionally-oriented graduate schools.

Our graduates are quickly operational and capable of taking positions of responsibility in a wide range of sectors and professions, thanks to the internships that form an integral part of programmes at every level and to the large number of courses taught by practitioners (business executives, civil servants from both France and abroad, specialists leading innovation in their field etc.). Within a year of completing their degrees, 70% of our graduates are employed in the private sector, 20% in the public sector and 10% in international organisations.

We hope you enjoy learning more about our graduates.

*\* QS World Rankings 2021*

# Degrees & careers.

**Sciences Po has been educating public and private sector decision-makers working in France and worldwide for almost 150 years.**

From their first year of undergraduate study to the completion of their Master's degree, 14,000 students of more than 150 nationalities acquire the fundamental knowledge and professional skills they need to excel in senior positions in a constantly changing international environment. 64% of them enter the private sector after graduating, 23% choose the public sector and 13% go on to work for international organisations.

Our graduates' outstanding analytical skills, intellectual agility and curiosity, writing skills and adaptability are highly valued by recruiters. 42% of our Master's students are recruited prior to their graduation.

# Our degree programmes

Sciences Po offers programmes from Bachelor's to PhD level, divided into three main stages:

## 1. UNDERGRADUATE

### The Undergraduate College

Three years of study

#### Bachelor of Arts in the Humanities and Social Sciences

Over the course of three years at one of our network of seven campuses, our 5,000 students learn the fundamentals of law, economics, history, political humanities, political science and sociology, complemented by courses in the arts and natural sciences.

They gain a solid understanding of a range of global issues (democracy, inequality, peace, migration, environmental protection, food security etc.) and explore political, social, economic and cultural issues from a regional perspective.

Civic engagement plays a central role in their studies, by means of internships completed in the first and second year, and opportunities throughout the programme to participate in socially engaged student associations and group projects.

All students spend their third year abroad, either completing a year-long academic exchange or a blended year with one semester in an internship. By the end of the programme, they have mastered the art of public speaking and debate and refined their critical thinking skills.

## 2. GRADUATE

### Seven schools, over 40 Master's programmes

#### Master's degree

Our master's programmes are divided among seven graduate schools. Each school offers programmes combining fundamental knowledge with practical experience geared towards a particular field.

- School of Public Affairs
- Paris School of International Affairs (PSIA)
- Law School
- School of Journalism
- School of Management and Innovation
- Urban School
- School of Research

The seven schools also offer **one-year Master's programmes** designed to enable young professionals to advance quickly or specialise in the early years of their career.

## 3. PHD

### School of Research

#### Doctorate degree, PhD

Students **wishing to study for a PhD** can join one of Sciences Po's five doctoral programmes in law, economics, history, political science and sociology, which draw on the research-based Master's programmes offered at the School of Research.

Sciences Po,  
a university  
committed to  
educating change  
makers.

# Career prospects

- Housing, real estate, mobility, economic development, social housing
- Design and engineering firms, architectural firms, consulting firms
- Local authorities or international organisations, urban planning or development agencies

*School of Public Affairs      Urban School*

## Press, media, publishing

TV channels, news agencies, radio, newspapers/press, websites, media in the broad sense

---

*School of Public Affairs  
School of Journalism*

*School of Research  
School of Management and  
Innovation*

## International cooperation and development

- Global governance organisations (OECD, UN, IMF, WTO, World Bank, etc.)
- Non-governmental organisations

---

*School of Public Affairs  
Paris School of International  
Affairs (PSIA)*

*Law School  
Urban School  
School of Research*

## Research, think tanks

- Secondary or higher education institutions
- Research institutes
- Think tanks

---

*School of Public Affairs  
Paris School of International  
Affairs (PSIA)*

*Urban School  
School of Research*

## Entrepreneurship

- Start-up as founder and CEO
- Public or private organisations (entrepreneurship development missions)

---

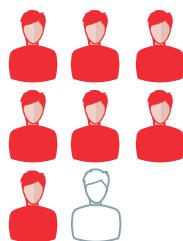

*All schools, with the support of the Centre for Entrepreneurship*

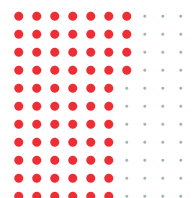

# Young graduate employability

Every year, Sciences Po conducts a Graduate Employability Survey to determine the professional situation of our graduates one year after completing their degree.

In 2021, 1,679 of the 2,536 graduates in the Class of 2019 responded to our survey in full, representing a 66% response rate.

# Seven Graduate Schools

## Seven graduate schools preparing students to enter the professional world.

Each Sciences Po school has its own identity and range of programmes defined by its specialised professional focus. Our Master's programmes accept students from a wide variety of backgrounds: the Sciences Po Undergraduate College, liberal arts or science universities, engineering or architecture schools, business schools, French *classes préparatoires*, etc.

Over two years, our 6,000 Master's students are brought continually into contact with the realities and challenges of the professional world. Core courses taught by the faculty at Sciences Po are complemented by specialised courses with leading practitioners in their sector.

Pedagogical innovation is central to the schools' approach. Case studies, workshops, team projects and study trips are used extensively to ensure active learning. Optional and mandatory internships, gap year internships and apprenticeships play a key part in preparing students for working life.

# School of Public Affairs

The School of Public Affairs trains the next generation of policy-shapers committed to championing the common good. The young professionals that emerge are highly competent, innovative and responsible, efficient and socially engaged. They take on roles that require a sweeping knowledge of public affairs, whether in the public or the private sector whether in the public, parapublic or private sector at a local, national, European or international level, and in any of a vast array of fields (public administration, consulting, economics, security and defence, health, energy and sustainable development, culture, new technologies, digital innovation etc. ).

**89%** are employed within six months of graduating

**58%** work in the private sector

**22%** work outside of France

**60%** of students admitted to ENA come from Sciences Po

# School of Management and Innovation

**Natacha Valla**  
Dean

The School of Management and Innovation trains future leaders of the private sector, who have the creativity and entrepreneurial vision needed to transform companies and rethink the role of business in society to ensure both growth and sustainability.

The school's Master's programmes have historically prepared students for careers in auditing, consulting, banking, finance, insurance, marketing, communications and human resources. Our graduates also excel in new fields like creative economy, innovation, data and digital technology, entrepreneurship, new business models, environment, responsible investment, risk management and governance.

## Our programmes

### Master's programmes

- Communication, Media and Creative Industries
- Communication, Media and Creative Industries (English track)
- Law and Finance (three-year programme with the Law School)
- Innovation & Digital Transformation
- International Management and Sustainability
- Finance and Strategy
- Marketing
- Marketing: New Luxury & Art de Vivre
- Organisations and Human Resources

### One-year Master's programmes

- Corporate Strategy

### Dual degree programmes

Universita Bocconi - Universität of St. Gallen - University of Pennsylvania - Fundação Getulio Varga-Escola de Administração de Empresas - Stockholm School of Economics - Fudan University

### In collaboration with

#### The Centre for Entrepreneurship

The Centre for Entrepreneurship supports students' entrepreneurial aspirations. Since 2009, 350 students have worked with the centre, 90 business projects have been incubated and 400 permanent positions have been created.

#### The Medialab

The Medialab was founded in 2009 and is run by Bruno Latour. It helps researchers in the humanities and social sciences to take full advantage of the data made available by digitisation.

# Urban school

**Patrick le Galès**  
Dean of the Urban School.  
CNRS senior researcher

Start with the city, transform the world. This is the ambition at the heart of the Urban School, which trains professionals specialising in territorial innovation, urban development and public policy. Our students come from diverse academic backgrounds (social sciences, engineering, architecture etc.) and receive advanced academic instruction in the governance of economic, social, ecological and democratic challenges. Professional skills are at the core of our courses, which are taught by some of the most innovative practitioners in their fields. Students are given a chance to put these skills into practice during field trips, team projects and internships throughout their studies. Our graduates are as well-equipped for work in the private as the public or non-profit sectors, becoming innovators, strategists, designers or managers.

**89%** are employed within six months of graduating

**56%** find their first job prior to graduating

**16%** find their first job outside of France

**71%** work in the private sector

## Who are our 411 students?

**63**  
on the Master in Urban Planning

**13%**  
Bi-national

**16%**  
International

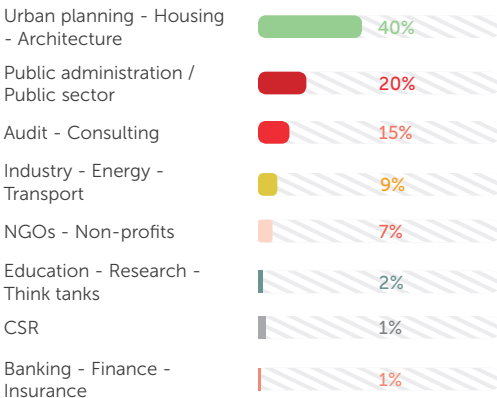

**71%**  
French

**348**  
on two-year Master's programmes:  
25 in apprenticeships, 25 on a dual degree programme

79 ON THE MASTER IN GOVERNING ECOLOGICAL TRANSITIONS IN EUROPEAN CITIES • 76 ON THE MASTER IN GOVERNING THE LARGE METROPOLIS • 193 ON THE MASTER IN URBAN AND REGIONAL POLICIES AND STRATEGIES • 63 ON THE URBAN PLANNING PROGRAMME

## Where do our graduates work?

### Destinations by sector

### Destinations by role

Minister's chief of staff • Urban planning agency director • Forecasting analyst • Social economy project manager • Urban planning and development manager • Real estate operations manager • Real estate development officer • Political staffer • Local authority finance consultant • Sustainable development consultant • Design engineer • Housing department director • Public relations manager • Marketing and development manager • Smart city business development manager • International development manager transports and mobility • Design and planning project manager

# School of Research

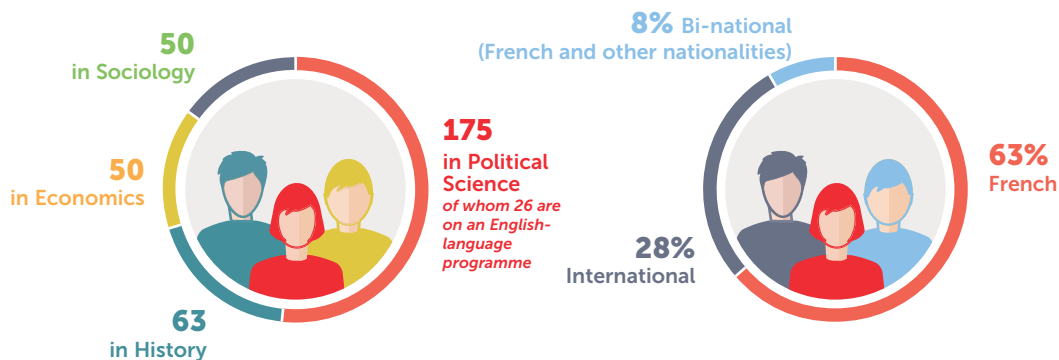

### Pierre François

Dean of the Doctoral School.  
Sociologist and CNRS senior  
researcher at CSO

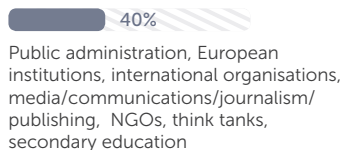

Multidisciplinary and internationally-facing, the School of Research promotes engagement with the greatest scientific, technological, environmental and social challenges facing contemporary society. Whatever our students' academic or professional plans, we equip them with the knowledge and practical skills they need to access a wide range of positions in both the public and private sector.

## Who are our 338 Master's students? \*

\* including gap year students, excluding exchanges

## Where do our graduates work?

## Our Master's programmes

- Economics
- History
- Political Science
  - Political Behaviour
  - Comparative Politics
  - Public policies
  - International Affairs
  - Political Theory
  - Political Science (General Track in English)
- Sociology

## Dual degree programmes

- **Sciences Po - Paris 1:** Dual degree in Economics and Quantitative Economics, Master in Economics at Sciences Po and Panthéon-Sorbonne University
- **Sciences Po - École du Louvre:** Sciences Po Master in History and École du Louvre research programme (history of art applied to collections and museology)
- **Sciences Po - King's College London:** Graduate Programme in Global and International History (with the Master in History at Sciences Po)

**76%** are employed within 6 months of graduating

**60%** are in permanent contracts

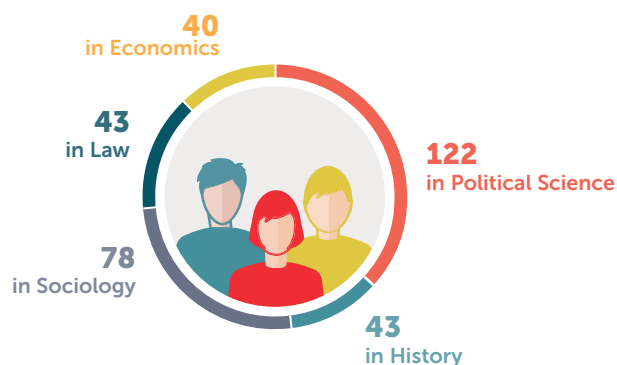

**22%** work outside of France

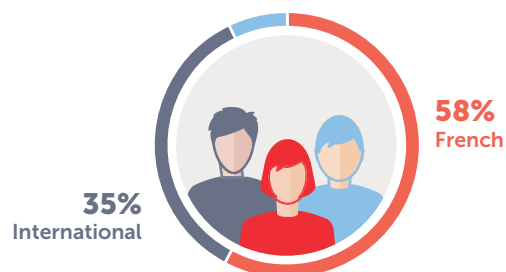

**56%** work in the private sector

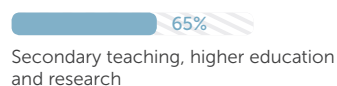

## Who are our 326 PhD students?

7% Bi-national  
(French and other nationalities)

## Where do our graduates work?

## Our PhD programmes

### PhD

- Law
- History
- Economics
- Sociology
- Political Science
  - Comparative Politics
  - International Affairs
  - Political Theory

### Dual degree programmes

- Columbia University (Political Science)
- Northwestern (Sociology)
- International Max Planck School (Political Science and Sociology)

## Fostering entrepreneurial talent

All our students receive entrepreneurial training, whether they intend to launch a startup or not.

Sciences Po focuses particularly on fostering students' inventiveness, curiosity, agility, perseverance, boldness, and ability to self-teach. This core of soft skills is taught through numerous courses based on "learning by doing".

Each year, the entrepreneurs and coaches of the Centre for Entrepreneurship train 1,000 of our students in creativity, design thinking, the lean startup methodology, pitching, business models, etc.

Students who have completed these courses are equipped to join startups as business developers or product managers, as well as large companies that launch internal projects following the "startup model".

# Meet & recruit

our students and young graduates

# Sciences Po internships

Our students’ studies are punctuated by compulsory or optional internships, from their first year on the undergraduate programme right through to the awarding of their Master’s degree.

BACHELOR'S		
Civic internship 1 <sup>st</sup> year	Independent Project internship 2 <sup>nd</sup> year	Internship abroad 3 <sup>rd</sup> year
<ul style="list-style-type: none"> <li>• Compulsory</li> <li>• 1 month full-time minimum</li> <li>• Between mid-May and the end of August</li> </ul>	<ul style="list-style-type: none"> <li>• Compulsory</li> <li>• Total duration of 60 hours minimum</li> <li>• All year, from the end of September to the end of April</li> <li>• 3-4 consecutive hours maximum per week</li> </ul>	<ul style="list-style-type: none"> <li>• Optional Six months full-time during the third year of study, starting in January</li> </ul>
<i>Internship in the public interest promoting equality and community. Missions must include contact with and assistance of a target group (social assistance, information, group activities, support, etc.)</i>	<i>Internship in which students participate actively in the designand/or running of a civic or community service project (e.g., outreach, education, prevention or awareness-raising activities).</i>	<i>This internship allows students to gain further professional experience that will help to guide them in their choice of a Master's programme and career plan.</i>

MASTER'S		OPTIONAL INTERNSHIPS
Gap year internships between 3 <sup>rd</sup> and 4 <sup>th</sup> year or 4 <sup>th</sup> and 5 <sup>th</sup> year	Compulsory final internship 5 <sup>th</sup> year M2	Full-time for 6 weeks maximum during the third year of study from January onwards
<ul style="list-style-type: none"> <li>• Optional</li> <li>• 2 internships of no more than 6 months</li> </ul>	<ul style="list-style-type: none"> <li>• Compulsory</li> <li>• During the off-campus semester of the Master's programme</li> <li>• 14 consecutive weeks minimum, 26 weeks maximum full time (see calendar)</li> <li>• In France or abroad</li> </ul>	<i>Optional internships allow students to experience new professional fields and activities, and to refine their final internship goals and career plans.</i>
<i>The purpose of the internship must link to the student's career plan and academic courses.</i>		

Good to know

### 1 Before the internship starts

- A contract or internship agreement must be signed before the student begins work.
- Please note, in the case of the Sciences Po internship agreement:
- You must sign five copies of the agreement
  - Allow one week for obtaining Sciences Po’s signature

### 2 During the internship

If you have any questions during the internship, you can contact your internship supervisor at Sciences Po.

### 3 After the internship

Students must complete and sign the internship evaluation form.

# Apprenticeships at Sciences Po

Eight of Sciences Po's Master's programmes offer students the opportunity to undertake an apprenticeship during their second year.

An apprenticeship is a form of training in which the student spends one year alternating between work in a public or private organisation and attending academic courses delivered at Sciences Po.

The organisation signs a specific employment contract with the student and Sciences Po, and enables the student to alternate between their paid work and courses according to a schedule defined in the contract.

When recruiting an apprentice, the organisation appoints a supervisor responsible for supporting and training the student as they develop their practical skills.

For you, employers, an apprenticeship is a unique opportunity to attract future talent to your company, give students first-hand knowledge of your activities and benefit from the critical perspective and innovative solutions they can contribute.

Because students must regularly spend time at Sciences Po, apprenticeships cannot be undertaken in organisations located outside France.

# Become a recruitment partner

Develop your employer reputation strategy at Sciences Po and gain exclusive opportunities to recruit the profiles your organisation needs.

## Gain benefits throughout the year:

- Tailor-made opportunities to target your desired audience: meetings, recruitment sessions, corporate presentations, case studies, after-work events etc.
- Visibility for your company on the Sciences Po Careers website and social networks (logos, articles, videos, employee testimonials)
- Preferential terms for participation in our careers fairs
- Invitations to careers round table discussions

## Our recruitment partners include

ADP, BNP Paribas, Chanel, CMA CGM, Hermès, L'Oréal, LVMH, Mazars, Pernod Ricard, PwC, Richemont, Sia Partners, Sopra Steria, Schneider Electric, Société Générale, Ubisoft...

## Our partner companies provide invaluable support

Sciences Po has forged special relationships with around a hundred French and international companies, who support the university's development and without whom many of our innovations in teaching and research could not have been realised.

These partnerships are formalised by a donor or sponsorship agreement\* and are accompanied by a financial commitment. This collaboration can take various forms, including:

- Partnerships designed to strengthen an employer's reputation among students and promote its recruitment opportunities.
- Support for Sciences Po's research activities (research chairs, programmes) in areas of interest to a company.
- Championing social responsibility: support for initiatives promoting the diversity of the student body beyond geographical, financial or physical barriers, particularly our equal opportunities programme and support system for students with a disability.
- Contribution to needs-based and academic excellence scholarships.
- Partnership with a relevant school or campus.

*\* with the possibility of tax deductions*

## CONTACT

SOPHIE SALIN  
**Company Partnerships Manager**  
sophie.salin1@sciencespo.fr  
T. +33 (0)1 45 49 55 10

# Meet our students and young graduates

Throughout the year, Sciences Po Careers and the seven Graduate Schools invite recruiters to participate in numerous events as part of our themed Careers Weeks: introduce your company, speak at careers round tables, attend our recruitment fairs or meet our students during networking sessions.

## Participate in information and recruitment fairs

Sciences Po Careers Fair  
Legal Careers Fair  
Consulting Careers Fair  
European Internships Fair (Brussels)  
Apprenticeship Fair  
Online International Internships/Job Fair

## Advertise your news and recruitment events

- On the Sciences Po Careers website
- In our news section
- In our newsletter
- On our social networks

## Propose a group project

Do you need a fresh perspective on your business? Would you like to entrust an issue your organisation is facing to a group of three to five international students with complementary skills? The group project is an introductory project management module open to first-year Master's students at Sciences Po. Participating students work on the project under near-professional conditions over a long-term period (8 months), acquiring key soft skills that employers look for.

**Christine Piers** - Team Projects  
christine.piers@sciencespo.fr **Ph.** +33 (0)1 45 49 86 64

## Organise Tailor-Made Recruitment Events

Present your internship or employment opportunities to students and recent graduates at Sciences Po or on your premises. We can offer tailor-made services (recruitment sessions, after work events, etc.), designed to meet your recruitment needs.

## Participate in careers panels

Share your professional experience and advice with our students.

*Examples of sector-specific themes:*

Web & tech, consulting, Social enterprise, European affairs, CSE and sustainable development...

*Examples of region-specific themes:*

Africa, the US, China, Latin America

# Career launch for students with disabilities

Since 2001, Sciences Po has pursued an ambitious equal opportunities policy that has enabled more than 360 talented students with disabilities to get a quality education and fully develop their professional skills and potential. You can do your bit to support them and recruit them for your organisation.

## SUPPORT THE SCIENCES PO ACCESSIBLE PROGRAMME

15 committed and impactful companies support Sciences Po's equal opportunities policy by contributing to the Sciences Po Accessible programme.

As partners, these companies benefit from:

- Visibility as a responsible employer through the funding of positive schemes for students (technical and personal support, mobility scholarships).
- Special contact with students to discuss internships and job openings.
- A booth at the Sciences Po Careers Fair made accessible free of charge.
- An annual event to meet students, present your careers opportunities and working culture, and give them professional advice.
- Option of offering mentors to guide students throughout the academic year.

### Companies that support Sciences Po Accessible:

**Accenture, AFD, BNP Paribas, BNP Paribas Cardif, Caisse nationale de solidarité pour l'autonomie (CNSA), Capgemini invent, EY, Handiem, Hermès, Groupe ADP, Groupe Casino, L'Oréal, Natixis – Ostrum Asset Management, Société Générale, Yce Partners.**

## The Sciences Po Accessible programme

This programme ensures that students with disabilities benefit from an accessible environment and tailored support right the way through their studies, from the moment they apply to Sciences Po until they begin.

In particular, they can access the following specialised services throughout the year:

- Internship, apprenticeship and job listings
- Introductions to partner organisations at the Sciences Po Careers Fair
- Mentoring: a scheme that puts the student in touch with an experienced professional at a partner organisation.
- The chance to participate in Duoday, a national event with the programme's partner organisations: student spends a day shadowing an employee at a private or public organisation to find out more about a sector, job or department.

**360** students with disabilities in 2021

**15** partner companies
